Special Features

特徴

- "Seamfree" Apron

No concern about foreign object and mildew

- Better Work efficiency: **Lighten the burden !**

Lighter in weight, compared to existing PU or PVC coated Apron

- Excellent Cost Performance

Lower production cost achieved by die-cut production technology

- High Durability: **Tough and highly durable!**

Higher abrasion resistance, compared to existing PU and PVC coated Apron

(Approximately **10 times** higher, compared to a PU coated Apron*)

*Tested at Japan Synthetic Textile Inspection Institute Foundation
