

Product name: Stage electric scroll elevator 3D metal screen (can be made by Special customized)

Scope of application: the cinema, the public function. Large stage, home theater, school, etc

Screen size /

- 1、 Can be customized according to customer requirements specifications
- 2、 The biggest 40 meters wide large-format can be customized
- 3、 According to the site design screen size

Classic shape /

The streamlined shape aluminum alloy shell, which is simple and elegant

Screen Smooth /

Screen left and right sides of the structure of elastic adjustable cord, can effectively eliminate "water ripple" on the surface of the screen, make sure that the screen surface smooth as a mirror

Wireless Controls /

With low noise motor, precise control, ensure that the screen surface tension balance, free to adjust the screen height, configuration of wireless remote control

Product features:

- 1、 Fill the blank of domestic products, to solve the oversize transportation, can't enter the arena, rising for performance and other technical problems,
- 2、 Unique material, to ensure the imaging layer closely connected with the substrates
- 3、 Low noise motor, can control precision screen height
- 4、 Screen has the very good contrast ratio, big Angle of view and good color reproduction

classic case

A1 | 深圳锦绣中华印象舞台

- 规格尺寸: 18.5m x 9m
- 采用幕料: 3D金属幕
- 面积: 166.5m²

A2 | 汕头艺都影城

- 规格尺寸: 18.5m x 9.5m
- 采用幕料: 3D金属幕
- 面积: 175.5m²

A3 | 南京U湖酒店

- 规格尺寸: 18m x 5m
- 采用幕料: 漫反射数字幕
- 面积: 90m²

A4 | 韶山毛泽东纪念馆

- 规格尺寸: 11m x 6m
- 采用幕料: 3D金属幕
- 面积: 66m²

绘影高清3D金属幕

Product name: cinema perforated metal screen (can be made by Special customized)
Scope of application: the cinema, the public function. Large stage, home theater, school, etc

Screen making /

1. Can be customized according to customer requirements specifications
2. The biggest 40 meters wide large-format can be customized
3. According to the site design screen size

Package edge /

Screen wrapped edge punching, single edge width 5 cm, 20 cm each hole, can be made according to the requirement to wear tube or punching bag bag side. Machine retainer. Solid Durable, around the edge of PVC thickening layer can bear larger pulling force

Screen Joining /

After the perfect seamless splicing, glare does not appear bright or dark; After the installation is complete, cannot see screenings seam

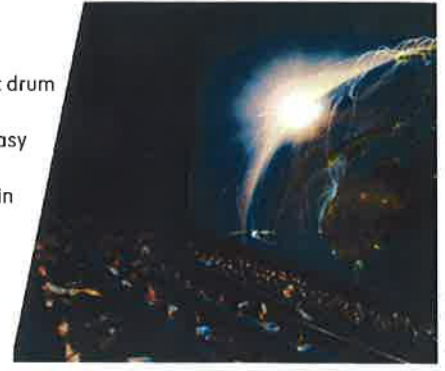

Screen parameters /

Luminance coefficient: digital screen β 1.1 to 1.8, metal screen β 2.0 to 2.8
Half gain Angle: digital screen $2\alpha \geq 100^\circ$, the metal screen $2\alpha \geq 64^\circ$
The acoustic attenuation 8 KHz < 3.75 dB 12.5 KHz < 4.55 dB

Top 10 (The reasons of the selection HuiYing screen)

- No odor perspective/big angle of view/high brightness/Not powder/can be clean
- Seamless splicing
- Can be Folded > convenient transportation, convenient approach
- Friction resistance > can produce large electric drum metal screen
- Easy to install > The paint layer is strong, not easy to damage
- Flame retardant > Passed the fire certification in most countries around the world
- Resistance to high temperature > 80 degrees high temperature won't destroy metal layer
- Solid edge
- Perforated hole of 0.8 mm in diameter
- Imaging layer of spherical particles provide big angle of view
